

Food Policy

Statement of intent

This setting regards snack and meal times as an important part of the setting's session/day. Eating represents a social time for children and adults and helps children to learn about healthy eating.

Aim

At snack times, we aim to provide nutritious food, which meets the children's individual dietary needs.

Methods

- Before a child starts to attend the setting, we find out from parents their children's dietary needs and preferences, including any allergies.
- We record information about each child's dietary needs in her/his registration record and parents sign the record to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs - including any allergies are up to date. Parents sign the up-dated record to signify that it is correct.
- We hold current information about individual children's dietary needs within each room so that all staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences as well as their parents' wishes.
- We provide nutritious food at all snacks, avoiding large quantities of saturated fat, sugar and salt and artificial additives, preservatives and colourings;
 - dairy foods;
 - grains, cereals and starch vegetables,
 - fruit and vegetables.
- We aim where possible to include foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones.
- We take care not to provide food containing nuts or nut products and are especially vigilant where we have a child who has a known allergy to nuts.
- Through discussion with parents and research reading by staff, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, and about food allergies. We take account of this information in the provision of food and drinks.
- We require staff to show sensitivity in providing for children's diets and allergies. Staff do not use a child's diet or allergy as a label for the child or make a child feel singled out because of her/his diet or allergy.
- We organise meal and snack times so that they are social occasions in which children and staff participate.
- We use meal and snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.

- We provide children with utensils that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the session/day.
- Where appropriate we inform parents who provide food for their children about the storage facilities available in the setting.
- Where necessary, we give parents who provide food for their children information about suitable containers for food.
- In order to protect children with food allergies, we have rules about children sharing and swapping their food with one another.
- For children who drink milk, we provide whole pasteurised milk.

Packed lunches

- If asked, we are able to refrigerate any perishable contents of packed lunches, we do not examine individual lunchboxes;
- Inform parents of our policy on healthy eating;
- Inform parents we do not have facilities to microwave any food brought from home.
- Encourage parents to provide sandwiches with a healthy filling, fruit, and milk based desserts such as yoghurt or crème fresh (petit filou).
- We discourage ;
 - any chocolate based products; including sweets, biscuits and cakes;
 - sweet / fizzy drinks and can provide children with water;
 - packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. (We reserve the right to return this food to the parent as a last resort);
 - any style of 'tube' yoghurt due to the potential choking hazard.
- We provide children bringing packed lunches with plates and cups and cutlery where necessary / appropriate.
- We ensure staff sit with children to eat their lunch so that the mealtime is a social occasion.
